When their mission demanded success, they didn't leave anything to chance—and neither did we. To guarantee 24/7/365 operational uptime in US Military mission-critical centers, they needed TS-cleared professionals for seamless, secure operations around the clock. They turned to Diversified for our proven track record in delivering operational excellence under pressure.

WHAT WE DELIVERED

- Operational support team to handle real-time troubleshooting in coordination with various departments.
- Multi-year contract to ensure flexibility and adaptability to ops centers' evolving needs
- Rapid service ticket resolution, effective execution of builds, and robust support for client needs
- Proactive communication to ensure alignment with client objectives timely solutions

IMPACT

With ongoing support from our dedicated team of experts, they can count on their operations centers to function flawlessly while supporting the warfighter on the ground. Day in and day out, they can focus on their critical missions without tech interruptions.
