

New! Secure Storage Solutions for Phones

LIFETIME
WARRANTY

Eliminating cell phone use during the academic day can result in increases in happiness, positive mental health, sleep quality and academic scores, and can reduce depression, anxiety and bullying.*

Stores up to 30
phones with cases!

We know that there are many benefits to reducing cell phone use, but managing student phones can be challenging. Our Phone Storage solutions make it easy! Our solutions are incredibly secure and their flexibility allows them to be placed in various locations such as in classrooms, principal offices, and even school entrances. In an emergency situation, the teacher can quickly unlock and distribute phones to students within the classroom compared to solutions that use specialized locking tools or that are not kept in the room.
